2017 LINCOLN  
MKZ

THIS MOMENT  
IS ALL YOURS

MAKE THE MOST OF IT IN THE NEW MKZ

**TAKE COMMAND WITH EASE.**

MKZ puts the control of a manual shift at your fingertips with its 6-speed SelectShift<sup>®</sup> automatic transmission. Just tap the steering wheel-mounted paddle shifters, and you can change gears if you choose.

**GRAB THE ROAD BY THE LAPELS.**

The new MKZ is a driver's car with the desire to excite, and the power to do it. Equipped with one of the most powerful engines Lincoln has ever produced – the all-new 3.0-liter GTDI V6<sup>1,2</sup> – MKZ puts 370 net PS and 570 N·m of net torque<sup>3</sup> at your disposal, all made possible by twin-turbocharging, direct-injection technology. Underfoot, it maximizes traction with its Intelligent all-wheel drive (AWD)<sup>2</sup> that constantly balances torque between the front and rear wheels, typically before wheelslip can even occur.

Or choose the standard 2.0-liter GTDI I-4 and get the kind of performance one might expect from a V6, in a 4-cylinder engine. With 253 net PS and 389 N·m of net torque<sup>3</sup> on command, MKZ delivers, thanks to the boost of twin-scroll turbocharging; the precision and efficiency of direct fuel injection; and the sophistication of twin independent variable camshaft timing (Ti-VCT).

<sup>1</sup>Late availability. <sup>2</sup>Available feature. <sup>3</sup>Data as per GCC Standardization Organization certification.

WITH POWER COMES RESPONSIBILITY

**MAINTAIN YOUR POISE.**

Road surfaces change. MKZ adapts. You remain comfortably in control. That's the beauty of Lincoln Drive Control featuring Continuously Controlled Damping (CCD). You don't know what to expect, but it does. Using sophisticated sensors, it reads the road – and your driving input – every 2 milliseconds. Then, it adjusts to help deliver a smooth ride and responsive handling.

Depending on your mood, feel free to select between 3 drive modes – Comfort, Normal or Sport. With any of them, Electric Power-Assisted Steering (EPAS) automatically adjusts to provide the kind of steering response and feedback that make you confident behind the wheel.

## ELEVATE YOUR ARRIVAL

Everything about the new MKZ is a step above, starting here. The redesigned grille makes a fresh styling statement with Lincoln mesh, flanked by clean, modern LED headlamps<sup>1</sup> for both form and function. They brighten the design, and with low energy draw and high lumen output, they actually illuminate 10x faster than conventional incandescents for the sense of instant on. For a wide-reaching view at low speeds, the adaptive feature automatically expands their low-beam light pattern to help enhance visibility of pedestrians and sidewalks.

A luxury vehicle should be a sanctuary to all. Interior amenities provide comfort, like a power rear-window sunshade that helps block the harsh rays of the sun for everyone's benefit. In addition, inflatable rear outboard safety belts<sup>1</sup> inflate to distribute crash-force energy across more of a passenger's chest to help make every ride in your Lincoln MKZ a safer one.

<sup>1</sup>Available feature.

#### REINVENT YOURSELF DAILY.

You get the chance every morning, and only you can do it. In designing MKZ, Lincoln artisans scrutinized everything, from the inside, out. They studied the look, feel and performance of many elements to create the beautiful environment you see here. Open, elegant and flowing. Refined in every way.

They designed new knobs and switches for the more frequently adjusted features. To give you a luxurious grip on your driving, they wrapped the steering wheel in Wollsdorf pure cowhide leather from Central Europe and the Alpine region. And to create the MKZ that you'll appreciate for years to come, you have a choice of interior finishes, including aluminum or real wood!

<sup>1</sup>Available feature.

Revel in a  
*brilliantly immersive*  
 listening experience,  
*exclusively from Lincoln.*

Music has the power to invigorate and liberate. Or calm and soothe. It can enhance a moment. Stay with you. Or conjure up an old memory in an instant. The experts at Revel understand. They live for it.

That's why we worked hand-in-hand with them to develop our Revel and Revel Ultima audio systems<sup>1</sup>, which feature a level of precision and musical accuracy you won't just hear – you'll feel it. Specialized listening modes transport you into the "Audience" or right up "On Stage." Revel Waveguides seamlessly blend the output of tweeter and midrange speakers for a natural listening experience. QuantumLogic<sup>®</sup> Surround Sound technology and advanced cabin correction tuning provide outstanding, multi-dimensional sound to every seat.

Choose the Revel Ultima audio system<sup>1</sup> to add patented Clari-Fi™ music reconstruction technology. Clari-Fi enhances your experience with satellite radio, streaming services, MP3s and other digital sources by rebuilding audio details that were lost during digital compression. The result is clear, crisp, wide, dynamic sound.

Clari-Fi, QuantumLogic, Revel, Ultima and the Revel logo are trademarks of HARMAN International Industries, registered in the United States and other countries.

**REVEL<sup>®1</sup>**

| SYNC

What could be easier than speaking your mind? Our next generation of voice-activated technology – SYNC® 3 – connects you to the world around you with its straightforward new design and features! Audio, phone, navigation<sup>2,3</sup> and other functions are concisely presented on the full-color LCD screen. Whether you command it using simple, everyday language, or swipe its capacitive touchscreen, SYNC 3 delivers high-speed performance. Plus, automatic updates over Wi-Fi<sup>4</sup> help keep it running at its best, so you can keep your eyes on the road and hands on the wheel.

THE DESIRE  
TO CONNECT  
IS HUMAN NATURE

**SYNC 3 KEEPS YOU CONNECTED.**

Place and answer calls, and control music from your USB device or smartphone, all with simple voice commands. The Navigation System<sup>2,3</sup> lets you pinch-to-zoom maps, and makes it easy to enter your destination, as well as find a market, a particular shop or a new restaurant, and so much more.

<sup>1</sup>Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out when the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. <sup>2</sup>Available feature. <sup>3</sup>Late availability. Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update. <sup>4</sup>You must have a Bluetooth®-enabled phone paired to your SYNC system.

The Bluetooth word mark is a trademark of the Bluetooth SIG, Inc. Wi-Fi® is a registered trademark of the Wi-Fi Alliance®.

#### **YOUR PERSONAL OASIS.**

Settle in and relax. Open the fully retractable panoramic glass roof<sup>1</sup> to bask in the sun's cascading rays. Welcome every opportunity to experience the cooled Bridge of Weir™ leather-trimmed front seats! And find comfort in the gentle rolling motion of the Active Motion<sup>®1</sup> front seats that can help melt away stress and muscle fatigue.

On every journey in MKZ, you can enjoy peace and quiet, thanks to extensive engineering inside and out. Aerodynamic sideview mirrors help deflect wind noise, while features like multilayer door seals and sound-absorbing materials throughout its body help keep road noise at bay. Additionally, Active Noise Control sends precise sound waves through the audio system to cancel out sounds it detects, keeping your interior calm.

<sup>1</sup>Available feature.

Bridge of Weir is a trademark of Bridge of Weir Leather Company Limited.

IN A SENSITIVE WORLD OF CALM

**DON'T BE CAUGHT OFF GUARD.**

Some vehicles may be out of your line of sight, but they can be spotted by BLIS® (Blind Spot Information System) with cross-traffic alert! If the system's radar sensors detect a vehicle in either blind spot while you're driving forward, the system can alert you with a light in the corresponding sideview mirror. While backing up, it can also detect a vehicle approaching from either side, then notify you with a warning light and an audible tone.

**STAY CENTERED.**

If you start to drift out of your lane, the Lane-Keeping System<sup>1,2</sup> is there to help. Using a forward-facing camera to detect road lane markings, it can apply steering wheel torque and even alert you with steering wheel vibration to help direct you to return to your lane. If it detects that you've crossed the line or repeatedly drifted, it can prompt the Driver Alert System<sup>1</sup> to chime and display a coffee cup image to remind you that it's break time.

**BE AWARE OF YOUR SURROUNDINGS.**

Sometimes you can't see it coming. Unexpected brake lights. A sudden turn in front of you. Get help from our Pre-Collision Assist with Pedestrian Detection!<sup>1</sup> Using camera and radar technology, it can monitor your vehicle's proximity to other vehicles and pedestrians. If a potential collision is detected, it can alert you with visible and audible warnings and, if needed, precharge the brakes and increase brake sensitivity to help provide full responsiveness when you brake. If the system determines a collision is imminent, active braking may automatically apply full braking.<sup>3</sup>

<sup>1</sup>Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Lane-Keeping System

does not control steering. <sup>3</sup>While Pre-Collision Assist with Pedestrian Detection may be especially helpful in unexpected situations, it does not replace the driver and has limitations, including nighttime, low and harsh lighting conditions, vehicles moving in a different direction, and certain weather conditions.

#### STRESS LESS IN STOP-AND-GO.

There's no need to hold down the brake pedal for a long stoplight or extended wait. Just activate the new Auto Hold feature,<sup>1</sup> then come to a complete stop. Even on a hill, the system will hold your MKZ in place until you press the accelerator.

When highway cruising or in lower-speed traffic, Adaptive Cruise Control with Stop-and-Go<sup>1,2</sup> is designed to eliminate the need for constant adjustments. You simply set the speed, and the system can adjust to maintain a preset gap from the vehicle in front of you, even following it to a complete stop.

<sup>1</sup>Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Available feature.

# PERPENDICULAR+PARALLEL

Wherever you need to park, MKZ can make it easier to maneuver into a spot. The Enhanced Active Park Assist System<sup>1,2</sup> uses ultrasonic sensors to help when you're looking for a perpendicular spot to back into or parallel parking. The system not only helps you find a suitable space, it steers the vehicle into it. All you do is follow on-screen prompts and control the shifter, brake and accelerator pedals. It even provides assistance when pulling out of a parallel spot. And for additional guidance during parking maneuvers, the Forward<sup>2</sup> and Reverse Sensing Systems<sup>1</sup> will emit beeping tones to alert you to objects near the front or rear of your vehicle.
